OFFICE OF MANAGEMENT AND BUDGET

On February 18th, 2009 OMB Director Peter R. Orszag issues the *Initial Implementing Guidance for the American Recovery and Reinvestment Act of 2009*.

The purpose of this guidance is to show that President Obama's Administration is committed to investing Recovery Act dollars with an *unprecedented level of transparency and accountability* so Americans know where their tax dollars are going and how they are being spent.

OFFICE OF MANAGEMENT AND BUDGET

The guidance issued by OMB establishes requirements that are intended to meet crucial accountability objectives:

- Funds are awarded and distributed in a prompt, fair, and reasonable manner;
- The recipients and uses of all funds are transparent to the public, and the public benefits of these funds are reported clearly, accurately, and in a timely manner;
- Funds are used for authorized purposes and instances of fraud, waste, error, and abuse are mitigated;
- Projects funded under this Act avoid unnecessary delays and cost overruns; and
- Program goals are achieved, including specific program outcomes and improved results on broader economic indicators.

- ❖ On June 22, 2009 the OMB Director issued a Memorandum for *Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009*.
- ❖ The reports required under Section 1512 of the Act will be submitted by recipients beginning in October 2009 and will contain detailed information on the projects and activities funded by the Recovery Act.
- ❖ Recipient reports required by Section 1512 of the Recovery Act will answer important questions, such as:
 - Who is receiving Recovery Act dollars and in what amounts?
 - What projects or activities are being funded with Recovery Act dollars?
 - What is the completion status of such projects or activities and what impact have they had on job creation and retention?
- ❖ OMB worked with the Recovery Accountability and Transparency Board to deploy a nationwide data collection system at the website **www.FederalReporting.gov** that will reduce information reporting burden on recipients by simplifying reporting instructions and providing a user-friendly mechanism for submitting required data

Overview of Recipient Reporting

- Answers questions and clarifies issues related to the mechanics and chronology of recipient reporting required by the Recovery Act;
- Provides clarification on what information will be required to be reported into the central reporting solution at www.FederalReporting.gov and what information will be reported on www.Recovery.gov;
- Establishes a common framework for Federal agencies and recipients to manage a data quality process associated with the Recovery Act recipient reporting requirements.

Recommendations for Prime Recipient Reporting

- **Register early**
 - Prime recipients must be registered in the Central Contractor Registration (CCR) system
 - The organization's DUNS number is required to register with CCR
 - CCR registration requires the organization's Tax ID Number (TIN) or Employer ID Number (EIN)
- **Clearly communicate with Sub recipients expectations for reporting**
- **Clearly coordinate reporting responsibility within your organization**
- **Gather as much information in advance as possible**
- **Plan ahead and use the XML validation service if you're planning on using the XML extract option**
- **Read over the FAQs in advance**

Reporting on Jobs Creation

Prime recipients are required to report on all jobs they have created or retained as a result of the Recovery Act, **by project or activity**.

This information will be reported as **two separate fields** – a numeric field and a separate narrative with an expanded description of the job creation and reporting methodology.

Prime recipients will report the number created and retained using a standard calculation, translating both full and part time employees into “full-time equivalents”, or FTEs.

This calculation is performed by adding the total hours worked by all employees in the quarter, and dividing by the total hours in a full-time schedule.

In some cases recipients will not perform the work themselves, but will distribute the funding via a grant, loan, or contract to another entity. In these cases recipients will provide estimates of the jobs created or retained by those entities.

Recipient Estimates of Job Impact

Prime recipients are required to generate estimates of job impact by directly collecting specific data from sub-recipients and vendors on the total FTE resulting from the sub-award.

In limited circumstances the prime recipient may employ an approved statistical methodology to generate estimates of job impact, collecting data only from a smaller subset of sub-recipients and vendors.

These limited circumstances should only include instances where comprehensive collection of jobs data from all subrecipients and vendors is overly costly or burdensome or disrupts the prime recipients' ability to accomplish their underlying mission.

Federal agencies must provide guidance for required sampling parameters. A process is now underway to develop this additional guidance.

While ARRA has not modified awardees' civil rights obligations, which are referenced in the NIH Grants Policy Statement, these obligations remain a requirement of Federal law. Recipients and subrecipients of ARRA funds or other Federal financial assistance must comply with Title VI of the Civil Rights Act of 1964 (prohibiting race, color, and national origin discrimination), Section 504 of the Rehabilitation Act of 1973 (prohibiting disability discrimination), Title IX of the Education Amendments of 1972 (prohibiting sex discrimination in education and training programs), and the Age Discrimination Act of 1975 (prohibiting age discrimination in the provision of services). Congress and in accordance with 45 CFR 74.21 and 92.20 "Uniform Administrative Requirements for Grants and Agreements", as applicable, and OMB A-102 Common Rules provisions, recipients agree to maintain records that identify adequately the source and application of Recovery Act funds.

- (b) For recipients covered by the Single Audit Act Amendments of 1996 and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," recipients agree to separately identify the expenditures for Federal awards under the Recovery Act on the Schedule of Expenditures of Federal Awards (SEFA) and the Data Collection Form (SF-SAC) required by OMB Circular A-133. This shall be accomplished by identifying expenditures for Federal awards made under Recovery Act separately on the SEFA, and as separate rows under Item 9 of Part III on the SF-SAC by CFDA number, and inclusion of the prefix "ARRA-" in identifying the name of the Federal program on the SEFA and as the first characters in Item 9d of Part III on the SF-SAC.

- (c) Recipients agree to separately identify to each sub-recipient, and document at the time of sub-award and at the time of disbursement of funds, the Federal award number, CFDA number, and amount of Recovery Act funds. When a recipient awards Recovery Act funds for an existing program, the information furnished to sub-recipients shall distinguish the sub-awards of incremental Recovery Act funds from regular sub-awards under the existing program.

- (d) Recipients agree to require their sub-recipients to include on their SEFA information to specifically identify Recovery Act funding similar to the requirements for the recipient SEFA described above. This information is needed to allow the recipient to properly monitor sub-recipient expenditure of ARRA funds as well as oversight by the Federal awarding agencies, Offices of Inspector General and the Government Accountability Office.

Recovery Act - Webinar Training Materials

To ensure that the public receives as much information as possible on the implementation of the American Recovery and Reinvestment Act (ARRA), Federal Agencies and recipients of ARRA funding are required to report dozens of data elements. Because such a wide variety of information is required – and since some elements are being reported for the first time – the Office of Management and Budget (OMB) prepared a series of webinars to train Federal Agencies and recipients of ARRA funding on how to comply with their reporting responsibilities. This series – "Implementing Guidance for the Reports on Use of Funds Pursuant to the American Reinvestment and Recovery Act of 2009" – is divided into 7 parts:

General Overview

The first webinar in the series summarizes the reporting requirements and sets the stage for the rest of the series.

Presentation was held on July 20, 2009.
