

TRANSFERENCIA DE TECNOLOGÍA

Descripción de las Organizaciones, Asociaciones y Entidades

1. Association of University Technology Managers (AUTM)

Esta es una asociación cuya misión es desarrollar la educación superior promocionando el uso de la tecnología de la información. EDUCAUSE está dirigida a personas que dirijan, manejen y usen los recursos de información para tomar decisiones estratégicas a cada nivel. Ofrece además oportunidades de programas de suscripción en áreas especializadas de investigación, oportunidades de colaboración profesional y foros.

2. iEdison

iEdison (which stands for Interagency Edison) helps government grantees and contractors comply with a federal law, the Bayh-Dole Act. Bayh-Dole regulations require that government funded inventions be reported to the federal agency who made the award. It provides a single interface for grantees and contractors to interact with any participating agency and makes it easy to learn about the law and its regulations and report an invention or patent funded by any of the agencies listed on the right.

3. NASA eNTRe

Is a website to help NASA employees and parties under NASA funding agreements (i.e., contracts, grants, cooperative agreements, and subcontractors there under) to report new technology information directly, via a secure Internet connection, to NASA. "New Technology Reports" Disclosure of each new technology (invention and innovation) made under the funding agreement within two months after the innovator discloses the new technology to the funding recipient's personnel responsible for invention/patent matters (Company New Technology Representative).

4. CienciaPR

El objetivo de CienciaPR es el de facilitar la diseminación de información relativa a la investigación en el archipiélago de Puerto Rico. Este portal contribuye a proveer una red de recursos que permita la colaboración entre científicos de Puerto Rico y del mundo.

5. Bio Smart

News for biotechnology industry. It comes everyday with the latest news in the industry around the world.

6. InnoCentive

InnoCentive is a global, online marketplace where organizations in need of innovation—companies, academic institutions, public sector, and non-profit organizations—can utilize a global network of over 160,000 of the world's brightest problem solvers.

7. NanoBusiness Alliance

The NanoBusiness Alliance's mission is to create a collective voice for the advancing nanotechnology industry and develop a range of initiatives to support the nanotechnology business community. Among the NanoBusiness Alliance's goals are the development of research and education programs, public policy and lobbying initiatives, public awareness campaigns, and industry support networks.

8. Tech Transfer eNews

A monthly newsletter filled with expert guidance and practical, how-to strategies for technology transfer professionals. It provides in-depth guidance designed to hasten and streamline the commercialization process, as well as maximize the financial benefits of that process.

9. USPTO News

USPTO News is an EIN News Service for patents and trademarks professionals. It constantly updated news and information about patents and trademarks.
